How to use this record

Keep one set of pages for each pet. Print them and keep them in a folder by the door, or write on them in any note-taking app that lets you mark up a PDF. Bring the vaccination and medication pages to every vet visit.

1. Start with the profile

Fill in the Pet profile and Vet & emergency contacts first. These are the pages a sitter or emergency vet will ask for.

2. Copy in past records

Add dates from old vet paperwork to the Vaccination record so you can see what is due next.

3. Tick the monthly tracker

Use the prevention tracker for flea, tick, heartworm or any other monthly treatment your vet recommends.

4. Log changes early

Small changes in weight, appetite or energy are easy to forget. Note them in the Symptom log and show your vet.

5. Leaving your pet?

Fill in the Pet sitter sheet and leave it on the fridge with the contacts page.

A FRIENDLY NOTE

This record helps you keep track of care. It is not veterinary advice. Always follow your vet's instructions for vaccines, medicines, doses and diet.
